The first album of the trilogy devoted to Ramon Llull includes a selection of pieces that represents some of the most important genres of the time of Ramon Llull, as well as some of the most representative authors. It offers a musical journey that accompanies the first development stages of Llull's life, since the moment that begins his radical change to the intellectual illumination, -which is attributed to a divine origin-, and that will lead him to Ars. "Conversion, study and contemplation" illustrates Ramon Llull's youth devoted to sensual pleasures, love and the cultivation of troubadour lyric poetry, from the perspective of a person who left world vanities.
